

NEED FUNDING FOR ARTS PROGRAMMING?

The **Community Impact Arts Grant (CIAG)** program funds arts and culture programming in support of non-arts organizations whose work is centered in civic problem solving across a range of areas to meet community needs. CIAG eligible applicants are non-arts organizations utilizing arts to achieve a broader mission, such as:

- Social service and social justice nonprofits
- Municipal departments
- Institutions of higher education

Join us for a FREE workshop to review application questions, eligibility, and grant requirements. At these workshops, Arts and Culture staff will be on hand to help new (and returning) applicants put their best foot forward.
