How Much Arts Education is Available to Students in Your Community?

The **Arts Ed Profile** is an online data platform that features school and district level information about what kind of arts instruction is happening across all areas of Los Angeles County.

WHY IS THE ARTS ED PROFILE IMPORTANT?

- Informs parents, community arts partners, and advocates about the quantity, quality, and equity of arts instruction in their community's public schools.
- Shows school and district staff and community whether arts education is being provided equitably in their district or community.
